Career Summary

Quality Engineering Analyst with 4.4+ years of experience in both manual and automation testing and skilled in identifying defects to ensure overall product quality and Proficient in Agile methodologies, Currently I am the IAM Admin and POC for SailPoint. successfully led testing activities across multiple project phases in telecom and insurance domains.

Technical Skills

Automation Test: Selenium with Java, TestNG, Maven, Kickstart Framework,
CI/CD Tools: Jenkins
Database Management: Oracle SQL
Programming Languages: JAVA
Tools/Technologies: Polarion, ALM, JIRA, Oracle DB

Experience

ACCENTURE PVT LTD.
Allianz – ATA Testing services **Feb 2024 – Present**
Quality Engineering Analyst **Bangalore, India**

- Sole tester responsible for both UI and integration testing of the SailPoint IAM application, using a mix of manual and automated testing techniques.
- Created and executed automated test cases using Selenium WebDriver, TestNG, and Kickstart, ensuring comprehensive coverage of both UI and integration layers.
- Validated application functionality across Pre-Prod, QA, and Dev environments, running automated regression tests to detect any issues after code changes.
- Identified, analysed and raised bugs using JIRA and Polarian, ensuring full defect lifecycle management and resolution.
- Managed test sets and test runs in Polarian, and provided detailed walkthroughs of test cases, test results, and automation practices during scrum calls with product owners.
- Delivered multiple releases on time with high accuracy, ensuring that all automated and manual testing efforts contributed to successful sprint closures.
- Received client appreciation for taking complete ownership of testing as the sole QA and for quickly adapting to the application's functionality and requirements.

ACCENTURE PVT LTD.
Vodafone New-Co **Jan 2022– Jan 2024**
Quality Engineering Associate **Pune, India**

- Conducted system and integration testing across multiple phases, ensuring seamless functionality of telecom billing and revenue management systems.
- Performed morning sanity and smoke testing on a shift basis to verify stability after each code drop, immediately identifying critical issues to minimize downtime.
- Managed test execution and defect tracking using ALM, maintaining rigorous schedules and delivering test results promptly with minimal delays.
- Collaborated effectively with development and business teams to identify, report defects, and assist in resolving complex issues via JIRA and ALM.
- Contributed significantly to regression and integration testing, ensuring changes did not disrupt core functionality, which led to on-time releases.

Certifications

- Microsoft Power Platform Fundamentals (PL-900)
- Microsoft Azure Fundamentals (AZ-900)

Education

Lendi institute of Engineering and Technology **July 2017 – June 2021**
Bachelor of Technology in Electronics and Communication technology CGPA:7.68

Languages

English, Hindi, Telugu

Achievements

- *Best Delivery Award – Recognized for exceptional contributions to the SailPoint IAM project for Allianz in February 2025, exceeding client expectations and ensuring high-quality test deliveries on time.*
- *Client Appreciation – Received positive feedback from Allianz stakeholders for quick onboarding, ownership of the testing process, and proactive issue resolution.*
